

## Album Ordering Guide

Welcome to our lesson on ordering an album. If you spend just a few minutes reviewing this info, it will certainly answer many questions and help offer you confidence while ordering your album.

### Wedding album ordering in 3 easy steps!

Brides and grooms seek high-quality custom albums that allow them to preserve their wedding photographs in a way that turns their collection into a story-book. Through the use of Art Leather albums, we offer you the ability to order the components to build a one-of-a-kind design.

Step 1 is to gather your photographs and determine a layout so you know how many pages you will need

Step 2 is to order your cover & inserts,

Step 3 is to order your mats.

You're done!

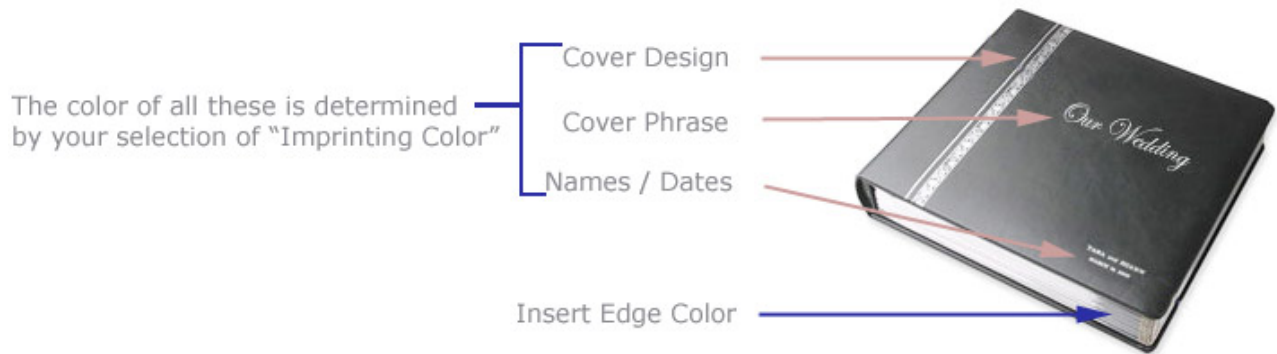

Ordering a complete album only requires three steps that we will outline here:

#### **Step 1: Gathering and arranging you images.**

It is important that you know how many images you want in your album before you order it. So gather the pictures and lay them out by page and size. Keep in mind each page can hold 1 image either or up to 4 images, depending the size of the album you choose. Use the handy forms we have in closed to keep track of your images and determine the number of pages and styles of mats you need. This guide includes a comprehensive list of available mats; we suggest you keep thing fairly simple with your design.

#### **Step 2: Ordering your album cover and inserts**

The cover of your wedding album is the exterior binding that holds everything together. Art Leather covers are available in a variety of colors which you can select from. Covers also have options of imprinting - which includes all design work, names, monograms, and dates on the front of an album cover. On models such as the Double Line, Ruled Florentine, and Thin Rule, the imprinting color you select will determine the color of that design as well as any names and/or dates added to the album.

Covers are available in several sizes. The larger the album, the larger the prints it will hold. Another benefit to larger albums is that you have more mat options that allow more options for placing multiple prints per page. See mat collections for specifics on sizing options.

#### Cover Materials:

- Aristohyde Synthetic Leather (on the website)
- Leather albums additional cost

#### **IMPORTANT NOTE ABOUT WHAT A "PAGE" IS:**

Over time, people have mistakenly called the sheets of paper in a book "pages". This is not correct. Each sheet of paper in the book is called a "leaf". Each leaf (sheet of paper) has two sides... a front and a back. Each one of those sides is defined as a "page" which can easily be seen by viewing the page numbers in a book, magazine, etc. **In albums, a leaf is often referred to as an "insert" because it is inserted into the spine as you assemble it, so on the order form it will be listed as in "insert". When ordering your album we have that broken down by page size.**

Albums are similar, so the front side is page 1 and the back side is page 2. If you are ordering a 30 page album, you will need 30 mats to complete it. Do NOT double or half either of the numbers. They must match... unless you are ordering extra mats.

#### **STEP 3: Ordering Your Mats**

This is a **must** in order to have a complete album. Without mats, your album is incomplete and will not hold prints. The mat options available to you depend on the

size album you order. Larger albums have more options than smaller albums. (See mat collections for details)

**IMPORTANT NOTE ON QUANTITY:** Order the same number of mats as you did pages in your cover. Do NOT double this number. We have already done the conversion for you. Pages are counted like in a book - front side is page 1, back side is page 2. If you order a 30 page album, you then order 30 mats.

Be sure to explore all the mat options. For larger albums, this will include mats that hold from 1 image per page all the way to 7 images per page. Some mats hold images of multiple sizes that really makes your album have a cool layout.

After Step 3, you simply checkout. Your Custom Art Leather album will arrive in 4 to 6 weeks

## Sample Album Design

In order to provide you with a better visual of the outstanding flexibility of Art Leather albums, we've designed an album here for you to see. It's amazing how many different mat configurations there are - and remember... you can rotate them in all 4 directions to increase your options.

Each pair of pages would face each other as you view the book. Pages are numbered below each one so you can better follow the order. Mat numbers are also posted so you can become familiar with how each may be used

## Quick Album Size Description

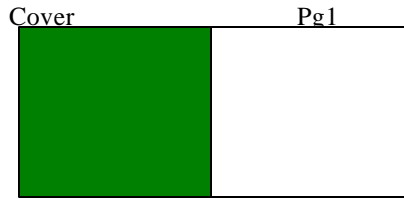

These album sizes are not the thickness or capacity of pages. This size refers to the height and width of the cover. Under each album style, we've listed the maximum size print that fits into the album. The larger the album cover dimensions, the more mat options you will have which allows for larger prints or more prints per page. Smaller albums only allow for one print per mat.

- **Large** - usually bridal albums up to (10x10 images)
- **Medium** - usually parent or bridal albums (up to 8x8 images)
- **Small** - hold 1 print per page - often parent albums or tote-along albums (up to 5x5 images)

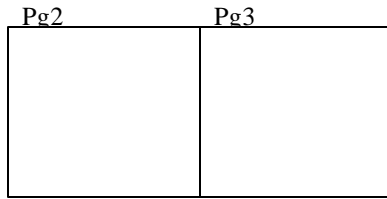

**Compact** - only hold 1 4x6 per page - often parent albums (sometimes parent gifts)
